Cargo clauses are attached to a type of marine insurance that covers cargo in transit. These clauses are to specify what items in the cargo are covered should there be damage or loss to the shipment – they can also cover the container that holds it to the mode of transportation used to ship it.

At this market briefing training event, our guest speaker will highlight two specific clauses:

- Process clause/concealed damage – link between project cargo and CAR
- Unpaid vendor/sellers interest/difference in conditions

Our Speaker:

Charlotte Warr is an experienced claims practitioner having worked in both the company and Lloyd's markets since 1987. She has experience in handling all classes of business as a leader and also in managing teams of claims personnel.

She is a qualified solicitor, still holding a current practicing certificate as well as being an Fellow of the Chartered Insurance Institute, a Chartered Insurer and a Senior Associate of the Association of average adjusters.

Charlotte brings a very practical overlay to all of her training sessions and has a simple mantra which is to make the business interesting to all working in it, and to prevent today's younger generation making the same mistakes she made when she was their age!
